4. The Issuer may at any time purchase Certificates in the market or otherwise. Certificates repurchased by or on behalf of the Issuer may be held by the Issuer, re-issued or resold.
5. For so long as the Certificates are admitted to listing on Borsa Italiana S.p.A. and to trading on the Electronic Securitised Derivatives Market (SeDeX) of Borsa Italiana S.p.A., then at any time prior to 5:50 p.m. Milan time (the "**Renouncement Notice Cut-Off Time**") on the first Payment Business Day following the Final Valuation Date (the "**Renouncement Notice Cut-Off Date**"), any Certificateholder may renounce the redemption of the Certificates by payment of the Settlement Amount in accordance with § 3 (the "**Automatic Exercise**") by the delivery of a duly completed renouncement notice (the "**Renouncement Notice**") in the form set out in Annex 1 to these Terms and Conditions to the Certificates Account Holder, with a copy thereof to the Paying Agent. Once delivered, a Renouncement Notice shall be irrevocable and the relevant Certificateholder may not transfer the Certificates which are the subject of the Renouncement Notice. If a duly completed Renouncement Notice is validly delivered prior to the Renouncement Notice Cut-off Time on the Renouncement Notice Cut-off Date, any rights arising from the Certificates will terminate upon such delivery and the relevant Certificateholder will not be entitled to receive the Settlement Amount payable by the Issuer with respect to the Certificates and the Issuer shall have no further liability with respect to such Settlement Amount.

Any determination as to whether a Renouncement Notice is duly completed and in proper form shall be made by the Certificates Account Holder (in consultation with the Paying Agent and the Clearing System) and shall be conclusive and binding on the Issuer, the Paying Agent and the relevant Certificateholder.

Subject as follows, any Renouncement Notice so determined to be incomplete or not in proper form shall be null and void. If such Renouncement Notice is subsequently corrected to the satisfaction of the Paying Agent, it shall be deemed to be a new Renouncement Notice submitted at the time such correction was delivered to the Certificates Account Holder, with a copy thereof to the Paying Agent.

**§ 5**

1. All amounts payable pursuant to these Terms and Conditions shall be paid to the Paying Agent for transfer to the Clearing System or pursuant to the Clearing System's instruction for credit to the relevant accountholders on the dates stated in these Terms and Conditions. Payment to the

Clearing System or pursuant to the Clearing System's instruction shall release the Issuer from its payment obligations under the Certificates in the amount of such payment.

2. If any payment with respect to a Certificate is to be effected on a day other than a Payment Business Day, payment shall be effected on the next following Payment Business Day. In this case, the relevant Certificateholder shall neither be entitled to any payment claim nor to any interest claim or other compensation with respect to such delay.
3. All payments are subject in all cases to any applicable fiscal or other laws, regulations and directives.

## § 6

### ADJUSTMENTS; EXTRAORDINARY TERMINATION RIGHT OF THE ISSUER

1. If an Adjustment Event or an Extraordinary Event has a material effect on the price of the Share, the Issuer will make adjustments to the Terms and Conditions taking into consideration the provisions set forth hereinafter. If an Extraordinary Event has occurred, the Issuer may (instead of such an adjustment) optionally terminate the Certificates prematurely with respect to a Payment Business Day (the "**Extraordinary Termination Date**") with a prior notice of seven Payment Business Days in accordance with § 11. Any termination of the Certificates in part shall be excluded.
  - (a) Adjustments to the Terms and Conditions shall correspond to the adjustments to option or futures contracts relating to the Share made by the Futures Exchange or that would have been made by the Futures Exchange if such option or futures contracts were traded on the Futures Exchange. In the event of any doubts regarding the application of the adjustment rules of the Futures Exchange, the Issuer shall decide in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The adjustments made by the Issuer may deviate from those made by the Futures Exchange in cases where the adjustments made by the Futures Exchange would only lead to a minor adjustment of the Terms and Conditions, as well as in cases when and where such deviation is necessary in the reasonable discretion of the Issuer (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) to compensate for the economic effect of the relevant Adjustment Event or Extraordinary Event on the price of the Share.

As a result of such adjustments especially the Strike Price may be amended.

The adjustments may also result in the Share being replaced by another share or other securities, a basket of securities and/or cash, and another stock exchange being determined as the Exchange. If the Futures Exchange makes an adjustment by replacing the Share by a basket of shares, the Issuer shall be entitled to determine only the share with the highest market capitalisation on the relevant Cut-off Date (as defined below) as the (new) Underlying, to sell the remaining shares in the basket on the first Exchange Business Day following the Cut-off Date (as defined below) at the first available price and to reinvest the proceeds immediately afterwards in the remaining Share.

Adjustments and determinations take effect as from the date (the "**Cut-off Date**") determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)), provided that (in case the Issuer follows the manner in which adjustments are or would be made by the Futures Exchange) the Issuer shall use the date at which such adjustments take effect or would take effect at the Futures Exchange if such option or futures contracts were traded at the Futures Exchange.

Adjustments and determinations as well as the effective date shall be notified by the Issuer in accordance with § 11.

Any adjustment in accordance with this § 6 paragraph 1 does not exclude a later termination in accordance with this paragraph on the basis of the same event.

- (b) If the Certificates are called for redemption due to the occurrence of an Extraordinary Event, they shall be redeemed at the termination amount per Certificate (the "**Extraordinary Termination Amount**") which shall be calculated by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) by taking into account applicable market conditions.

The Issuer shall pay the Extraordinary Termination Amount to the Certificateholders not later than the fifth Payment Business Day following the Extraordinary Termination Date to the Clearing System for crediting the accounts of the depositors of the Certificates with the Clearing System. The rights in connection with the Certificates shall expire upon the payment of the Extraordinary Termination Amount to the Clearing System.

2. The Issuer may also terminate the Certificates according to paragraph 1 in the case of a takeover-bid, i.e. an offer to take over or to swap or any other offer or any other act of an individual person or a legal entity that results in the individual person or legal entity buying, otherwise acquiring or obtaining a right to buy more than 10% of the outstanding shares of the Company as a consequence of a conversion or otherwise, all as determined by the Issuer based on notifications to the competent authorities or on other information determined as relevant by the Issuer.

## **§ 7 TAXES**

All present and future taxes, fees or other duties in connection with the Certificates shall be borne and paid by the Certificateholders. The Issuer is entitled to withhold from payments to be made under the Certificates any taxes, fees and/or duties payable by the Certificateholder in accordance with the previous sentence.

## **§ 8 STATUS**

The obligations under the Certificates constitute direct, unconditional and unsecured (*nicht dinglich besichert*) obligations of the Issuer and rank at least *pari passu* with all other unsecured and unsubordinated obligations of the Issuer (save for such exceptions as may exist from time to time under applicable law).

## **§ 9 PAYING AGENT**

1. Commerzbank Aktiengesellschaft, Kaiserstraße 16 (Kaiserplatz), 60311 Frankfurt am Main, Federal Republic of Germany, shall be the paying agent (the "**Paying Agent**") and BNP Paribas Securities Services, Via Ansperto 5, 20123 Milano, Republic of Italy, shall be the additional paying agent (the "**Additional Paying Agent**").
2. The Issuer shall be entitled at any time to appoint another bank of international standing as Paying Agent and/or Additional Paying Agent. Such appointment and the effective date shall be notified in accordance with § 11.
3. The Paying Agent and the Additional Paying Agent are hereby granted exemption from the restrictions of § 181 of the German Civil Code (*BGB*) and any similar restrictions of the applicable laws of any other country.

**§ 10**  
**SUBSTITUTION OF THE ISSUER**

1. Any other company may assume at any time during the life of the Certificates, subject to paragraph 2, without the Certificateholders' consent all the obligations of the Issuer under and in connection with the Certificates. Any such substitution and the effective date shall be notified by the Issuer in accordance with § 11.

Upon any such substitution, such substitute company (hereinafter called the "**New Issuer**") shall succeed to, and be substituted for, and may exercise every right and power of, the Issuer under the Certificates with the same effect as if the New Issuer had been named as the Issuer in these Terms and Conditions; the Issuer (and, in the case of a repeated application of this § 10, each previous New Issuer) shall be released from its obligations hereunder and from its liability as obligor under the Certificates.

In the event of such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer.

2. No such assumption shall be permitted unless
  - (a) the New Issuer has agreed to assume all obligations of the Issuer under the Certificates;
  - (b) the New Issuer has agreed to indemnify and hold harmless each Certificateholder against any tax, duty, assessment or governmental charge imposed on such Certificateholder in respect of such substitution;
  - (c) the Issuer (in this capacity referred to as the "**Guarantor**") has unconditionally and irrevocably guaranteed to the Certificateholders compliance by the New Issuer with all obligations under the Certificates;
  - (d) the New Issuer and the Guarantor have obtained all governmental authorisations, approvals, consents and permissions necessary in the jurisdictions in which the Guarantor and/or the New Issuer are domiciled or the country under the laws of which they are organised.
3. Upon any substitution of the Issuer for a New Issuer, this § 10 shall apply again.

**§ 11**  
**NOTICES**

Notices relating to the Certificates shall be published on the Issuer's website <http://pb.commerzbank.com> or in the electronic version of the Federal Gazette (*Bundesanzeiger*) and possibly, without giving rise to any obligation for the Issuer, through a notice by Borsa Italiana S.p.A., and shall be deemed to be effective upon such publication unless such publication gives another effective date.

Following the admission to listing of the Certificates, any change/amendment or material information in connection with the Certificates will be published by Borsa Italiana S.p.A. through a stock exchange notice in accordance with the relevant legal and regulatory provisions in force in the Republic of Italy.

**§ 12**  
**LIMITATION OF LIABILITY**

The Issuer shall be held responsible for acting or failing to act in connection with the Certificates only if, and insofar as, it either breaches material obligations under or in connection with the Terms and Conditions negligently or wilfully or breaches other obligations with gross negligence or wilfully. The same applies to the Paying Agent and the Additional Paying Agent, if any.

**§ 13**  
**FINAL CLAUSES**

1. The Certificates and the rights and duties of the Certificateholders, the Issuer, the Paying Agent and the Guarantor (if any) shall in all respects be governed by the laws of the Federal Republic of Germany except for § 1 paragraph 1 and 2 of the Terms and Conditions which shall be governed by the laws of the Republic of Italy.

The rights and duties of the Additional Paying Agent shall in all respects be governed by the laws of the Republic of Italy.

2. In the event of manifest typing or calculation errors or similar manifest errors in the Terms and Conditions, the Issuer shall be entitled to declare rescission (*Anfechtung*) to the Certificateholders. The declaration of rescission shall be made without undue delay upon becoming aware of any such ground for rescission (*Anfechtungsgrund*) and in accordance with § 11. Following such rescission by the Issuer, the Certificateholders may instruct the account holding bank to submit a duly completed redemption notice to the Paying Agent, either by filling in the relevant form available from the Paying Agent or by otherwise stating all information and declarations required on the form (the "**Rescission Redemption Notice**"), and to request repayment of the Issue Price against transfer of the Certificates to the account of the Paying Agent with the Clearing System. The Issuer shall make available the Issue Price to the Paying Agent within ten calendar days following receipt of the Rescission Redemption Notice and of the Certificates by the Paying Agent, whichever receipt is later, whereupon the Paying Agent shall transfer the Issue Price to the account specified in the Rescission Redemption Notice. Upon payment of the Issue Price all rights under the Certificates delivered shall expire.
3. The Issuer may combine the declaration of rescission pursuant to paragraph 2 with an offer to continue the Certificates on the basis of corrected Terms and Conditions. Such an offer and the corrected provisions shall be notified to the Certificateholders together with the declaration of rescission in accordance with § 11. Any such offer shall be deemed to be accepted by a Certificateholder (and the rescission shall not take effect), unless the Certificateholder requests repayment of the Issue Price within four weeks following the date on which the offer has become effective in accordance with § 11 by delivery of a duly completed Rescission Redemption Notice via the account holding bank to the Paying Agent and by transfer of the Certificates to the account of the Paying Agent with the Clearing System pursuant to paragraph 2. The Issuer shall refer to this effect in the notification.
4. "**Issue Price**" within the meaning of paragraph 2 and 3 shall be deemed to be the higher of (i) the purchase price that was actually paid by the relevant Certificateholder (as declared and proved by evidence in the request for repayment of the relevant Certificateholder) and (ii) the weighted average (as determined by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)) of the traded prices of the Certificates on the Payment Business Day preceding the declaration of rescission pursuant to paragraph 2. If a Market Disruption Event exists on the Payment Business Day preceding the declaration of rescission pursuant to paragraph 2, the last Payment Business Day preceding the declaration of rescission pursuant to paragraph 2 on which no Market Disruption Event existed shall be decisive for the ascertainment of price pursuant to the preceding sentence.
5. Contradictory or incomplete provisions in the Terms and Conditions may be corrected or amended, as the case may be, by the Issuer in its reasonable discretion (*billiges Ermessen*) (§ 315 German Civil Code (*BGB*)). The Issuer, however, shall only be entitled to make such corrections or amendments which are reasonably acceptable to the Certificateholders having regard to the interests of the Issuer and in particular which do not materially adversely affect the legal or financial situation of the Certificateholders. Notice of any such correction or amendment shall be given to the Certificateholders in accordance with § 11.

6. If the Certificateholder was aware of typing or calculation errors or similar errors at the time of the acquisition of the Certificates, then, notwithstanding paragraphs 2 - 5, the Certificateholders can be bound by the Issuer to the corrected Terms and Conditions.
7. Should any provision of these Terms and Conditions be or become void in whole or in part, the other provisions shall remain in force. The void provision shall be replaced by a valid provision that reflects the economic intent of the void provision as closely as possible in legal terms. In those cases, however, the Issuer may also take the steps described in paragraphs 2 - 5 above.
8. Place of performance is Frankfurt am Main.
9. Place of jurisdiction for all disputes and other proceedings in connection with the Certificates for merchants, entities of public law, special funds under public law and entities without a place of general jurisdiction in the Federal Republic of Germany is Frankfurt am Main. In such a case, the place of jurisdiction in Frankfurt am Main shall be an exclusive place of jurisdiction.
10. The English version of these Terms and Conditions shall be binding. Any translation is for convenience only.

## Section D – Risks

The purchase of Certificates is associated with certain risks. **The Issuer expressly points out that the description of the risks associated with an investment in the Certificates describes only the major risks which were known to the Issuer at the date of the Base Prospectus.**

Element	Description of Element	Disclosure requirement
D 2	<b>Key risks specific to the Issuer</b>	<p>The Certificates entails an issuer risk, also referred to as debtor risk or credit risk for prospective investors. An issuer risk is the risk that COMMERZBANK becomes temporarily or permanently unable to meet its obligations to pay interest and/or the settlement amount.</p> <p>Furthermore, COMMERZBANK is subject to various risks within its business activities. Such risks comprise in particular the following types of risks:</p> <p><u>Global Financial Market Crisis and Sovereign Debt Crisis:</u></p> <p>The global financial crisis and sovereign debt crisis, particularly in the eurozone, have had a significant material adverse effect on the Group's net assets, financial position and results of operations. There can be no assurance that the Group will not suffer further material adverse effects in the future, particularly in the event of a renewed escalation of the crisis. Any further escalation of the crisis within the European Monetary Union may have material adverse effects on the Group, which, under certain circumstances, may even threaten the Group's existence. The Group holds substantial volumes of sovereign debt. Impairments and revaluations of such sovereign debt to lower fair values have had material adverse effects on the Group's net assets, financial position and results of operations in the past, and may have further adverse effects in the future.</p> <p><u>Macroeconomic Environment:</u></p> <p>The macroeconomic environment prevailing over the past few years continues to negatively affect the Group's results, and the Group's heavy dependence on the economic environment, particularly in Germany, may result in further substantial negative effects in the event of a possible renewed economic downturn.</p> <p><u>Counterparty Default Risk:</u></p> <p>The Group is exposed to default risk (credit risk), including in respect of large individual commitments, large loans and commitments, concentrated in individual sectors, referred to as "cluster" risk, as well as loans to debtors that may be particularly affected by the sovereign debt crisis. The run-down of the ship finance portfolio and the Commercial Real Estate finance portfolio is exposed to considerable risks in view of the current difficult market environment and the volatility of ship prices and real estate prices and the default risk (credit risk) affected thereby, as well as the risk of substantial changes in the value of ships held as collateral, directly owned, directly owned real estate and private and commercial real estate held as collateral. The Group has a substantial number of non-performing loans in its</p>

portfolio and these defaults may not be sufficiently covered by collateral or by write-downs and provisions previously taken.

Market Price Risks:

The Group is exposed to market price risks in the valuation of equities and investment fund units as well as in the form of interest rate risks, credit spread risks, currency risks, volatility and correlation risks, commodity price risks.

Strategic Risks:

There is a risk that the Group may not be able to implement its strategic agenda or may be able to do so only in part or at higher costs than planned, and that the implementation of planned measures may not lead to the achievement of the strategic objectives sought to be obtained.

Risks from the Competitive Environment:

The markets in which the Group is active, particularly the German market (and, in particular, the private and corporate customer business and investment banking activities) and the Polish market, are characterized by intense competition on price and on transaction terms, which results in considerable pressure on margins.

Liquidity Risks:

The Group is dependent on the regular supply of liquidity and a market-wide or company-specific liquidity shortage can have material adverse effects on the Group's net assets, financial position and results of operations. Currently, the liquidity supply of banks and other players in the financial markets is strongly dependent on expansive measures of the central banks.

Operational Risks:

The Group is exposed to a large number of operational risks including the risk that employees will enter into excessive risks on behalf of the Group or violate compliance-relevant regulations in connection with the conduct of business activities and thereby cause considerable losses to appear suddenly, which may also lead indirectly to an increase in regulatory capital requirements.

Risks from Equity Participations:

COMMERZBANK is exposed to particular risks in respect of the value and management of equity investments in listed and unlisted companies. It is possible that the goodwill reported in the Group's consolidated financial statements will have to be fully or partly written down as a result of impairment tests.

Risks from Bank-Specific Regulation:

Ever stricter regulatory capital and liquidity standards and procedural and reporting requirements may call into question the business model

of a number of the Group's activities, adversely affect the Group's competitive position, or make the raising of additional equity capital necessary. Other regulatory reforms proposed in the wake of the financial crisis, for example, requirements such as the bank levy, a possible financial transaction tax, the separation of proprietary trading from the deposit-taking business, or stricter disclosure and organizational obligations may materially influence the Group's business model and competitive environment.

Legal Risks:

Legal disputes may arise in connection with COMMERZBANK's business activities, the outcomes of which are uncertain and which entail risks for the Group. For example, claims for damages on the grounds of flawed investment advice have led to substantial liabilities for the Group and may also lead to further substantial liabilities for the Group in the future. Payments and restoration of value claims have been asserted against COMMERZBANK and its subsidiaries, in some cases also in court, in connection with profit participation certificates and trust preferred securities they have issued. The outcome of such proceedings may have material adverse effects on the Group that go beyond the claims asserted in each case. Regulatory, supervisory and judicial proceedings may have a material adverse effect on the Group. Proceedings brought by regulators, supervisory authorities and prosecutors may have material adverse effects on the Group.

**D 6**      **Key information  
on the key risks  
that are specific  
to the securities**

No secondary market immediately prior to the final maturity

The market maker and/or the exchange will cease trading in the Certificates shortly before their scheduled Maturity Date. However, between the last trading day and the Final Valuation Date, the price of the Underlying, which is relevant for the Certificates, may still change. This may be to the investor's disadvantage.

No Collateralization

The Certificates constitute unconditional obligations of the Issuer. They are neither secured by the Deposit Protection Fund of the Association of German Banks (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) nor by the German Deposit Guarantee and Investor Compensation Act (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). This means that the investor bears the risk that the Issuer cannot or only partially fulfil the attainments due under the Certificates. Under these circumstances, a total loss of the investor's capital might be possible.

This means that the investor bears the risk that the Issuer's financial situation may worsen - and that the Issuer may be subjected to a reorganisation proceeding (*Reorganisationsverfahren*) or transfer order (*Übertragungsanordnung*) under German bank restructuring law or that insolvency proceedings might be instituted with regard to its assets - and therefore attainments due under the Certificates cannot or only partially be done. Under these circumstances, a total loss of the investor's capital might be possible.

Risks in connection with the EU framework for the recovery and resolution of credit institutions and investment firms, with the EU Regulation establishing a Single Resolution Mechanism, and with the proposal for a new EU regulation on the mandatory separation of certain banking activities

The EU framework for the recovery and resolution of credit institutions and investment firms (the so-called Bank Recovery and Resolution Directive ("**BRRD**")) that will have to be applied by Member States from 1 January 2015, except for the general bail-in tool which is to be applied from 1 January 2016, provides *inter alia* for potential loss participation of creditors of failing credit institutions through a bail-in which gives the competent resolution authority the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including senior securities) to equity (the "**general bail-in tool**"), which equity could also be subject to any future application of the general bail-in tool.

Any such write-down (or conversion into equity) would not result in an early redemption. Consequently, any amounts so written down would be irrevocably lost and the holders of such instruments would cease to have any claims thereunder, regardless whether or not the bank's financial position is restored. The exercise of any power under the BRRD or any suggestion of such exercise could, therefore, materially adversely affect the rights of Certificateholders, the price or value of their investment in any Certificates and/or the ability of the Issuer to satisfy its obligations under any Certificates.

Further, the EU Regulation establishing a Single Resolution Mechanism ("**SRM Regulation**") contains provisions relating to resolution planning, early intervention, resolution actions and resolution instruments that should become applicable as of 1 January 2016. A centralised decision-making will be built around a Single Resolution Board. This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Board – which will take all relevant decisions for banks being part of the Banking Union.

On 29 January 2014, the European Commission adopted a proposal for a new on the mandatory separation of certain banking activities that are in many respects stricter than the requirements under the German bank separation law (sections 3(2)-(4), 25f, 64s of the German Banking Act (*Kreditwesengesetz* – KWG). European banks that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal or exceed €70 billion or 10% of their total assets, will be automatically banned from engaging in proprietary trading defined narrowly as activities with no hedging purposes or no connection with customer needs. In addition, such banks will be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities - including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – are not subject to the ban, however they might be subject to separation. The proprietary trading ban would apply as of 1 January

2017 and the effective separation of other trading activities would apply as of 1 July 2018. Should a mandatory separation be imposed, additional costs are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits.

#### Foreign Account Tax Compliance Act Withholding

The Issuer may be required to withhold tax at a rate of 30% on all, or a portion of, payments made after 31 December 2016 in respect of (i) securities issued or materially modified after the date that is six months after the date on which the final regulations applicable to "foreign passthru payments" are filed in the Federal Register or (ii) securities treated as equity for U.S. federal tax purposes, whenever issued, pursuant to the foreign account tax compliance act provisions of the U.S. Hiring Incentives to Restore Employment Act of 2010 – FATCA.

#### Impact of a downgrading of the credit rating

The value of the Certificates could be affected by the ratings given to the Issuer by rating agencies. Any downgrading of the Issuer's rating by even one of these rating agencies could result in a reduction in the value of the Certificates.

#### Extraordinary termination, early redemption and adjustment rights

The Issuer shall be entitled to perform adjustments with regard to the aforesaid Terms and Conditions or to terminate and redeem the Certificates prematurely if certain conditions are met. This may have a negative effect on the value of the Certificates as well as the Extraordinary Termination Amount. If the Certificates are terminated, the amount payable to the holders of the Certificates in the event of the termination of the Certificates may be lower than the amount the holders of the Certificates would have received without such termination.

#### Market disruption event

The Issuer is entitled to determine market disruption events that might result in a postponement of a calculation and/or of any attainments under the Certificates and that might affect the value of the Certificates. In addition, in certain cases stipulated, the Issuer may estimate certain prices that are relevant with regard to attainments or the reaching of barriers. These estimates may deviate from their actual value.

#### Substitution of the Issuer

If the conditions set out in the Terms and Conditions are met, the Issuer is entitled at any time, without the consent of the holders of the Certificates, to appoint another company as the new Issuer with regard to all obligations arising out of or in connection with the Certificates in its place. In that case, the holder of the Certificates will generally also assume the insolvency risk with regard to the new Issuer.

### Risk factors relating to the Underlying

The Certificates depend on the value of the Underlying and the risk associated with this Underlying. The value of the Underlying depends upon a number of factors that may be interconnected. These may include economic, financial and political events beyond the Issuer's control. The past performance of an Underlying should not be regarded as an indicator of its future performance during the term of the Certificates.

#### Risk relating to an automatic early redemption

Under certain circumstances as set forth in the Terms and Conditions, the Certificates may be redeemed early if certain conditions are met, which may adversely affect the economics of the Certificates for the investor.

#### Risk at maturity:

The Certificates could be redeemed on the Maturity Date by payment of a Settlement Amount which will be significantly below the initial issue price of Euro 1,000 per Certificate. In this case the investor could suffer a loss. This is - disregarding the costs incurred in connection with the purchase of the Certificates - the case, if on the Final Valuation Date the Reference Price of the Shares is below a predetermined percentage of the Strike Price of the Worst Performing Underlying.

The investor will suffer a loss if the Settlement Amount which will be depending on the performance of the Worst Performing Underlying (plus any Bonus Amounts and less local taxes) is below the purchase price paid for the Certificates. The lower the Reference Price of the Shares and thus the lower the Settlement Amount, the greater will be the loss. Worst Case: The Shares are worthless on the Final Valuation Date. In this case the Settlement Amount will be equal to zero.

#### Risks if the investor intends to sell or must sell the Certificates during the term:

##### *Market value risk:*

The achievable sale price prior to the Maturity Date could be significantly lower than the purchase price paid by the investor.

The market value of the Certificates mainly depends on the performance of the Certificates' Underlyings, without reproducing it accurately. In particular, the following factors may have an adverse effect on the market price of the Certificates:

- Changes in the expected intensity of the fluctuation of the Underlyings (volatility)
- Remaining term of the Certificates
- Interest rate development

- Developments of the dividends of the Share

Each of these factors could have an effect on its own or reinforce or cancel each other.

*Trading risk:*

The Issuer is not obliged to provide purchasing and sale prices for the Certificates on a continuous basis on exchanges or over the counter (OTC) and to sell or buy back the Certificates offered there. Even if the Issuer generally provides purchasing and sale prices, in the event of extraordinary market conditions or technical troubles, the sale or purchase of the Certificates could be temporarily limited or impossible.

**C 15**      **Incidenza del Sottostante sul valore dei titoli:**      Il rimborso dei Certificates alla Data di Scadenza e, in caso di evento di rimborso anticipato automatico, l'Importo di Rimborso Anticipato Automatico da versare alla relativa Data di Rimborso Anticipato Automatico, dipendono dall'andamento del Sottostante.

#### In particolare:

Fermo restando le disposizioni contenute nei Termini e Condizioni, ciascun Certificate sarà rimborsato alla Data di Scadenza mediante pagamento di un importo in Euro (l'"**Importo di Liquidazione**"), come determinato dall'Emittente ai sensi dei Termini e Condizioni.

L'Importo di Liquidazione per Certificate è, ove necessario, arrotondato alla successiva Euro 0.01 (con Euro 0.005 arrotondato per eccesso)).

Vi sono due possibili scenari per il rimborso dei Certificates alla Data di Scadenza:

ovvero

2. in tutti gli altri casi, ciascun Certificate sarà rimborsato mediante pagamento di un Importo di Liquidazione determinato in base alla seguente formula:

$$IC \times \frac{\text{Peggior Sottostante}_{\text{Finale}}}{\text{Peggior Sottostante}_{\text{Strike}}}$$

Dove

"**IC**" indica l'"**Importo di Calcolo**" pari a Euro 1.000,

## Sezione D – Rischi

L'acquisto di Certificates è soggetto a determinati rischi. **L'Emittente indica espressamente che la descrizione dei rischi relativi ad un investimento nei Certificates descrive soltanto i principali rischi di cui l'Emittente era a conoscenza alla data del Prospetto di Base.**

<b>Elemento</b>	<b>Descrizione dell'Elemento</b>	<b>Informazioni</b>
<b>D 2</b>	<b>Principali rischi specifici per l'Emittente</b>	<p>I Certificates comportano per i potenziali investitori un rischio emittente, definito anche rischio debitore o rischio di credito. Un rischio emittente è il rischio che Commerzbank non sia in grado temporaneamente o in via definitiva di soddisfare le sue obbligazioni di pagamento dell'interesse e/o dell'importo di rimborso.</p> <p>Inoltre Commerzbank è soggetta a vari rischi in relazione alle sue attività commerciali. Tali rischi comprendono in particolare le seguenti categorie di rischi:</p> <p><u>Rischi relativi alla Crisi Globale dei Mercati Finanziari e alla Crisi del Debito Sovrano</u></p> <p>La crisi finanziaria globale e la crisi del debito sovrano, in particolare nell'Eurozona, si sono ripercossi negativamente sul patrimonio netto, la posizione finanziaria e i risultati operativi del Gruppo. Non vi è garanzia che il Gruppo non subisca ulteriori effetti negativi significativi in futuro, in particolare nel caso di una rinnovata intensificazione della crisi. L'eventuale ulteriore intensificazione della crisi nell'Unione Monetaria Europea può avere effetti negativi concreti sul Gruppo che, in talune circostanze, potrebbero addirittura costituire una minaccia per l'esistenza del Gruppo. Il Gruppo detiene volumi significativi di debito sovrano. Deterioramenti e rivalutazioni di tale debito sovrano hanno avuto effetti concreti molto negativi sul patrimonio netto, sulla posizione finanziaria e sui risultati operativi passati del Gruppo, e potrebbero avere conseguenze negative per il futuro.</p> <p><u>Congiuntura macroeconomica</u></p> <p>La congiuntura macroeconomica perdurante negli ultimi anni continua ad influenzare negativamente i risultati del Gruppo e la forte dipendenza dello stesso dalla situazione economica, particolarmente in Germania, può portare a ulteriori significativi peggioramenti in caso di eventuali nuove recessioni dell'economia.</p> <p><u>Rischio di Insolvenza della Controparte</u></p> <p>Il Gruppo è soggetto al rischio di insolvenza (rischio di credito) - anche in relazione a rilevanti impegni individuali, ingenti prestiti ed altri impegni concentrati in singoli settori, definito anche rischio "aggregato", così come in relazione a prestiti a soggetti che possono essere particolarmente influenzati dalla crisi del debito sovrano. La riduzione del portafoglio di finanziamenti navali e del portafoglio di finanziamenti di immobili commerciali è soggetto a rischi significativi associati alle attuali difficoltà del mercato e alla volatilità del mercato immobiliare e dei prezzi delle navi, e al rischio di insolvenza (rischio di credito) che gli stessi comportano, nonché al rischio di sostanziali</p>

mutamenti del valore delle navi detenute a titolo di garanzia, possedute direttamente, e degli immobili ad uso privato e commerciale posseduti direttamente.

Il Gruppo detiene nel proprio portafoglio un considerevole numero di mutui in sofferenza e queste inadempienze potrebbero non essere sufficientemente coperte da garanzie o storni e predeterminate provviste.

#### Rischi legati al Prezzo di Mercato

Il Gruppo è soggetto al rischio del prezzo di mercato in relazione alla valutazione di titoli azionari e di quote di fondi di investimento, nonché sotto forma di rischi di tasso di interesse, di rischi di *credit spread*, di rischi valutari, di rischi di volatilità e di correlazione, di rischi di prezzo delle materie prime.

#### Rischi legati alla Strategia

Esiste il rischio che il Gruppo possa non essere in grado di attuare i propri piani strategici, o che sia in grado di farlo solo in parte o a costi superiori a quelli previsti, e che la realizzazione delle misure previste possa non portare al raggiungimento degli obiettivi strategici prefissati.

#### Rischi derivanti dal Contesto Concorrenziale

I mercati in cui il Gruppo è attivo – in particolare il mercato tedesco (soprattutto le attività con clienti privati e società nonché attività di *investment banking*) e il mercato polacco – sono caratterizzati da un'intensa concorrenza in termini di prezzi e condizioni, che crea una pressione significativa sui margini.

#### Rischi relativi alla Liquidità

Il Gruppo dipende dal regolare flusso di liquidità e una carenza di liquidità dell'intero mercato o circoscritta alla singola società può avere un significativo impatto negativo sul patrimonio netto del Gruppo, sulla posizione finanziaria e sui risultati operativi. Attualmente, la liquidità fornita dalle banche e dagli altri operatori dei mercati finanziari dipende fortemente dalle misure espansive adottate dalle banche centrali.

#### Rischi Operativi

Il Gruppo è esposto a una vasta gamma di rischi operativi, incluso il rischio che i propri dipendenti espongano il Gruppo a elevati rischi, o violino le regole di conformità nello svolgimento delle attività di *business*, causando perdite significative inaspettate, che possono anche tradursi indirettamente in un aumento dei requisiti patrimoniali obbligatori.

#### Rischi derivanti dalle Partecipazioni Azionarie

Commerzbank è soggetta a particolari rischi legati al valore e alla gestione delle partecipazioni in società quotate e non quotate, E' possibile che l'avviamento riportato nel bilancio consolidato debba essere stornato, in tutto o in parte, a seguito di verifica per riduzione

durevole di valore (*impairment test*).

#### Rischi derivanti dalla Regolamentazione dell'Attività Bancaria

Requisiti più severi che mai in relazione al patrimonio di vigilanza e alla liquidità nonché in materia di procedure e comunicazioni possono mettere in discussione il modello di business di un certo numero di attività del Gruppo ed influenzare negativamente la posizione competitiva del Gruppo ovvero rendere necessario reperire nuovo capitale. Altre riforme regolamentari proposte in seguito alla crisi finanziaria, ad esempio requisiti quali un'imposta bancaria, un'eventuale tassa sulle transazioni finanziarie, la separazione tra attività di negoziazione per conto proprio e attività di raccolta di depositi, ovvero obblighi di trasparenza e organizzativi più rigorosi, possono avere un notevole impatto sul modello di business del Gruppo e sul contesto di mercato a livello concorrenziale.

#### Rischi Legali

Potrebbero insorgere controversie legali aventi ad oggetto l'attività di business di Commerzbank, l'esito incerto delle quali comporta una serie di rischi per il Gruppo. Ad esempio, richieste di risarcimento dovute ad errata consulenza sull'investimento hanno comportato notevoli passività e potrebbero comportarne altre in futuro per il Gruppo. Nei confronti di Commerzbank e delle sue controllate sono state presentate richieste di pagamento e di risarcimento, in alcuni casi nell'ambito di procedimenti giudiziari, relative ai certificati di partecipazione e ai cd. *trust preferred securities* da essa emessi. L'esito di tali procedimenti può avere ripercussioni negative concrete sul Gruppo, al di là delle richieste rivendicate in ciascun caso. Procedimenti regolamentari, di vigilanza e giudiziari potrebbero avere un effetto negativo significativo sul Gruppo. I procedimenti avviati dalle autorità regolamentari e di vigilanza e dalle autorità giudiziarie potrebbero avere considerevoli effetti negativi sul Gruppo.

rischi specifici  
per i titoli**

#### Assenza di mercato secondario immediatamente prima della scadenza

Il market maker e/o il mercato cesseranno la negoziazione dei Certificates immediatamente prima della loro Data di Scadenza prefissata. Tuttavia, tra l'ultimo giorno di negoziazione e la Data di Valutazione Finale, il prezzo del Sottostante, che è relativo ai Certificates possono ancora cambiare. Ciò potrebbe andare a svantaggio dell'investitore.

#### Assenza di Collateralizzazione

I Certificates costituiscono obbligazioni incondizionate dell'Emittente. Essi non sono né garantiti dal Fondo per la Protezione dei Depositi dell'Associazione delle Banche Tedesche (*Einlagensicherungsfonds des Bundesverbandes deutscher Banken e.V.*) né dalla Legge Tedesca sulla Garanzia dei Depositi e Compensazione degli Investitori (*Einlagensicherungs- und Anlegerentschädigungsgesetz*). Ciò significa che sull'investitore incombe il rischio che l'Emittente non possa o possa solo in parte, soddisfare gli obblighi ai sensi dei Certificates. In tali circostanze, potrebbe verificarsi una perdita totale del capitale

dell'investitore.

Ciò significa che l'investitore sopporta il rischio che le condizioni finanziarie dell'Emittente possano peggiorare – e che l'Emittente possa essere soggetto a procedure di riorganizzazione (*Reorganisationsverfahren*) o ordini di trasferimento (*Übertragungsanordnung*) ai sensi della legge tedesca sulla ristrutturazione bancaria o che possano essere instaurate procedure di insolvenza in relazione al suo patrimonio – e, di conseguenza, gli obblighi ai sensi dei *Certificates* non possano, o possano solo in parte, essere soddisfatti. In tali circostanze, potrebbe verificarsi una perdita totale del capitale dell'investitore.

Rischi derivanti dal quadro normativo comunitario di risanamento e risoluzione delle crisi degli istituti di credito e società di investimento, a seguito del Regolamento Europeo che istituisce un Meccanismo Unico di Risoluzione (*Single Resolution Mechanism*) e a seguito della proposta di Regolamento sull'obbligo di separazione di talune attività bancarie.

Il quadro normativo comunitario di risanamento e risoluzione delle crisi degli istituti di credito e delle società di investimento (la cosiddetta *Bank Recovery and Resolution Directive – "BRRD"*) che dovrà essere applicata dagli Stati Membri dal 1 gennaio 2015, salvo laddove è applicato lo strumento del *bail-in* applicato a partire dal 1 gennaio 2016, prevede *inter alia* la partecipazione dei creditori alla perdita potenziale degli enti creditizi in dissesto attraverso un *bail-in* che fornisce all'autorità competente per la risoluzione il potere di ridurre taluni importi dovuti ai creditori chirografari di un ente in dissesto e di convertire i debiti (inclusi i titoli *senior*) in capitale, qualora ricorrano taluni requisiti (il cosiddetto "**meccanismo di bail-in**"), tale capitale potrà anche essere soggetto a future applicazioni del meccanismo di *bail-in*.

Eventuali riduzioni (o conversione in capitale) in conformità al meccanismo di *bail-in* non comporterebbero il rimborso anticipato. Ne consegue che eventuali importi così ridotti sarebbero irrevocabilmente persi e i titolari di tali strumenti perderebbero ogni diritto ad essi spettante in virtù degli stessi, indipendentemente dal fatto che la posizione finanziaria della banca venga o meno ripristinata. L'esercizio di qualsiasi azione in forza della BRRD o qualsiasi accenno di tale esercizio potrebbe, quindi, influire materialmente e negativamente sui diritti dei portatori dei *Certificates*, il prezzo o il valore del loro investimento nei *Certificates* e/o sulla capacità dell'Emittente di adempiere ai propri obblighi in ragione dei *Certificates*.

Inoltre, il Regolamento UE che stabilisce il Meccanismo Unico di Risoluzione (*Single Resolution Mechanism – "SRM Regulation"*) contiene alcune previsioni relative a piano di risoluzione, primo intervento, azioni di risoluzione e strumenti di risoluzione che saranno applicabili a partire dal 1 gennaio 2016. Un accentramento decisionale verrà creato intorno a un Singolo Comitato per la Risoluzione (*Single Resolution Board*). Tale quadro dovrebbe garantire che, al posto delle autorità nazionali di risoluzione, ci sia una singola autorità – ad esempio il Comitato – in grado di prendere tutte le decisioni rilevanti per le banche facenti parte dell'Unione Bancaria.

Il 29 gennaio 2014, la Commissione Europea ha adottato una proposta la quale prevede obblighi di separazione di talune attività bancarie, che sono per molti aspetti più rigorosi dei requisiti imposti dalla legge tedesca sulla separazione bancaria (sezione 3(2)-(4), 25f, 64s del *German Banking Act (Kreditwesengesetz – KWG)*). Le banche europee che eccedono le seguenti soglie per tre anni consecutivi: a) patrimonio complessivo pari o superiore a Euro 30 miliardi; b) attività detenute per la negoziazione e passività pari o superiori a Euro 70 miliardi o 10% del proprio patrimonio complessivo, saranno automaticamente interdette dalla negoziazione in conto proprio in senso stretto che non abbiano finalità di copertura o connessioni con esigenze della clientela. Inoltre a tali banche sarà vietato investire in o detenere quote di fondi "*hedge fund*". Le altre attività bancarie di negoziazione e investimento – inclusi l'attività di *market-making*, investimenti in capitale di rischio e fondi di *private equity*, investimenti e sponsorizzazioni di complesse cartolarizzazioni, vendita e negoziazione di derivati – non sono soggette a divieto, ma potranno tuttavia essere soggette a separazione. Il divieto di negoziazione in conto proprio si applicherà a partire dal 1 gennaio 2017 e la separazione effettiva delle altre attività di negoziazione si applicherà a partire dal 1 luglio 2018. Se una separazione obbligatoria dovesse essere imposta non è possibile escludere costi aggiuntivi, in termini di costi di finanziamento più elevati, requisiti di capitale aggiuntivi e costi operativi dovuti alla separazione, mancanza diversificazione dei benefici.

Le ritenute ai sensi del Foreign Account Tax Compliance possono avere un impatto sui pagamenti relativi ai Certificates

All'Emittente potrà essere richiesta una ritenuta ad un tasso fino al 30% su tutti o una parte dei pagamenti effettuati dopo il 31 dicembre 2016 in relazione a (i) titoli emessi o sostanzialmente modificati a partire dalla data sei mesi successiva alla data in cui i regolamenti finali applicabili ai pagamenti *passthru* di origine statunitense (*foreign passthru payments*) siano inseriti nel Registro Federale (*Federal Register*) oppure (ii) titoli trattati come strumenti di capitale ai fini della normativa fiscale federale degli Stati Uniti, emessi in qualsiasi momento, in conformità alle previsioni del *Foreign Account Tax Compliance Act* del *US Hiring Incentives to Restore Employment Act of 2010 – FATCA*.

Impatto di un declassamento del rating del credito

Il valore dei Certificates potrebbe essere influenzato dai ratings assegnati all'Emittente dalle agenzie di rating. Qualsiasi declassamento del rating dell'Emittente anche da una di tali agenzie di rating potrebbe comportare una riduzione del valore dei Certificates.

Risoluzione straordinaria, rimborso anticipato e diritti di rettifica

L'Emittente potrà apportare rettifiche rispetto ai sopramenzionati Termini e Condizioni al fine di estinguere e rimborsare i Certificates prematuramente qualora certe condizioni siano soddisfatte. Ciò potrebbe avere un effetto negativo sul valore dei Certificates nonché sull'importo di Estinzione. Qualora i Certificates siano estinti, l'importo

dovuto ai portatori dei Certificates nel caso di estinzione dei Certificates potrebbe essere inferiore rispetto all'importo che i portatori dei Certificates avrebbero ricevuto in assenza di tale estinzione.

#### Eventi di Turbativa del Mercato

L'Emittente potrà determinare eventi di turbativa di mercato che potrebbero comportare un rinvio del calcolo e/o di qualsiasi obbligo ai sensi dei Certificates che potrebbe influenzare il valore dei Certificates. Inoltre, in certi casi predeterminati, l'Emittente potrà stimare certi prezzi che sono rilevanti in relazione agli obblighi o al raggiungimento delle barriere. Tali stime possono divergere dal loro attuale valore.

#### Sostituzione dell'Emittente

Qualora siano soddisfatte le condizioni stabilite nei Termini e Condizioni, l'Emittente potrà, in qualsiasi momento, senza il consenso dei portatori dei Certificates, nominare al suo posto un'altra società come nuovo Emittente in relazione agli obblighi derivanti dai, o connesse ai, Certificates. In tal caso, il portatore dei Certificates si assumerà generalmente il rischio di insolvenza in relazione al nuovo Emittente.

#### Fattori di rischio relativi al Sottostante

I Certificates dipendono dal valore del Sottostante e dai rischi associati a tale Sottostante. Il valore del Sottostante dipende da un numero di fattori che potrebbero essere interconnessi. Questi possono includere eventi economici, finanziari e politici al di fuori del controllo dell'Emittente. L'andamento precedente di un Sottostante non dovrebbe essere considerato come un indicatore del suo futuro andamento nel corso della durata dei Certificates.

#### Rischio relativo al rimborso anticipato automatico

In talune circostanze indicate nei Termini e Condizioni, i Certificates potrebbero essere rimborsati in via anticipata qualora ricorrano alcune condizioni. Tale circostanza potrebbe influenzare negativamente il vantaggio economico derivante all'investitore dai Certificates.

#### Rischi alla scadenza:

I Certificates potrebbero essere rimborsati alla Data di Scadenza mediante pagamento di un Importo di Liquidazione che sarà considerevolmente inferiore al prezzo di emissione di Euro 1.000 per Certificate. In tal caso, l'investitore potrebbe subire una perdita. Una simile ipotesi – indipendentemente dai costi sostenuti in relazione all'acquisto dei Certificates – potrà verificarsi, qualora alla Data di Valutazione Finale il Prezzo di Riferimento dei Azioni sia inferiore ad una percentuale prestabilita del Prezzo di Strike del Sottostante con Peggior Performance.

L'investitore subirà una perdita qualora l'Importo di Liquidazione che dipenderà dall'andamento del Sottostante con Peggior Performance (più gli eventuali Importi Bonus e meno le imposte locali) sia inferiore

al prezzo di acquisto pagato per i Certificates. Tanto minore sarà il Prezzo di Riferimento dei Azioni e, a sua volta, sarà minore l'Importo di Liquidazione, tanto maggiore sarà la perdita. Scenario peggiore: i Azioni sono privi di valore alla Data di Valutazione Finale. In tal caso l'Importo di Liquidazione sarà pari a zero.

Rischi relativi all'ipotesi incui l'investitore intenda o debba vendere i Certificates nel corso della loro durata:

*Rischi legati al valore di mercato:*

Il prezzo di vendita che si può ottenere prima della Data di Scadenza potrebbe essere significativamente inferiore al prezzo d'acquisto pagato dall'investitore.

Il valore di mercato dei Certificates dipende principalmente dall'andamento dei Sottostanti dei Certificates, senza riprodurlo in maniera accurata. In particolare, i seguenti fattori possono avere un effetto negativo sul prezzo di mercato dei Certificates:

- Cambiamenti nell'intensità attesa delle fluttuazioni di valore dei Sottostanti prevista (volatilità)
- Durata residua dei Certificates
- Andamento dei tassi d'interesse
- Sviluppi dei dividendi dell'Azione

Ciascuno di questi fattori potrebbe avere un effetto autonomo o amplificare o annullarne gli altri.

*Rischi di negoziazione:*

L'Emittente non è obbligato a fornire prezzi di acquisto e vendita dei Certificates in continua su mercati o al di fuori dei mercati (*over the counter* (OTC)) e a vendere o riacquistare i Certificates ivi offerti. Anche se l'Emittente generalmente fornisce prezzi di acquisto e vendita, nel caso di condizioni di mercato straordinarie o problemi tecnici, la vendita o l'acquisto dei Certificates potrebbe essere temporaneamente limitata o impossibile.
