

SOMEC: MESTIERI WINS 4 CONTRACTS TOTTALLING 13.2 MILLION EURO

These contracts cover 2 high-end brand stores and 2 Norwegian Cruise Line luxury ships.

Chairman Marchetto: *“The growing demand for high craftsmanship and hyper-customised environments is matched by Mestieri business unit’s across-the-board expertise and skills”*

San Vendemiano (Treviso), 23 July 2024 - Somec S.p.A. (Euronext Milan: SOM), specialising in the design, production and installation of complex turnkey civil and naval projects, has announced that its business unit *Mestieri, Design and Production of Bespoke Interiors*, has won 4 contracts totalling 13.2 million Euro approximately.

The first 2 contracts were entered into by Mestieri S.p.A., leader of the *Mestieri, Design and Production of Bespoke Interiors* business unit, and pertain to the retail sector.

The first agreement entails integrating a contract announced last April for a unique retail space to be located in an iconic New York skyscraper. Gino Ceolin S.r.l., specialising in metal construction works, will produce some creative wrought-iron gazebos specially developed based on the designer's project, using a special material finish. The project is slated for delivery between the end of 2024 and the beginning of 2025.

The second contract covers the supply of a monumental staircase connecting three levels of a luxury brand’s flagship store in Vienna’s most prestigious district. It will be completed by Gino Ceolin S.r.l., Budri S.r.l. and Lamp Arredo S.r.l. and will require the use of metal, marble and glass. The project is slated for delivery at the beginning of 2025.

The other 2 contracts, entered into by TSI - Total Solution Interiors with a leading shipbuilding company, pertain to approximately 4500 square metres of common areas for each of Norwegian Cruise Line’s 2 upcoming ships, both belonging to the luxury segment. These projects are scheduled for completion in spring 2025 and 2026, respectively.

“Winning such major contracts fills us with great satisfaction”, stated Oscar Marchetto, Chairman of the Somec Group. “The hyper-customisation of areas with a view to creating immersive experiences on board cruise ships or inside high-end stores, is the overarching theme featuring all our projects. In this regard, Mestieri, gathering the best Italian know-how and reflecting Italy’s refined workmanship, can fully express its expertise on the international scene. We are therefore determined to strengthen our leading position, meeting the strong demand for high craftsmanship worldwide”.

Somec

The Somec Group specializes in the engineering, design and deployment of complex turnkey projects in the civil and naval sectors, operating through three Business Units: Horizons: Engineered Systems for Naval Architecture and Building Façades; Talenta: Professional Kitchen Systems and Products; and Mestieri: Design and Production of Bespoke Interiors. The Group's companies operate in an integrated and synergistic way, according to strict quality and safety standards and guaranteeing a high degree of customization and specific know-how on the processing of different materials, which is a fundamental requirement in high value-added projects.

In over 40 years of history and by relying on rigorous certification and accreditation processes, Somec has achieved a reputation for quality and operational and financial reliability on a global scale.

Headquartered in San Vendemiano, Treviso, the Group is present in 12 countries and 3 continents, employing about 1,000 people and with revenues of 371 million Euro in 2023.
