FAE Technology S.p.A. - Benefit Company is a Tech company and parent of the Italian electronics sector Group of the same name. Founded in 1990 in Gazzaniga (BG) by Francesco Lanza, who began by producing a small series of electronic boards, FAE Technology has been led since 2008 by his son Gianmarco Lanza, Chairperson and Chief Executive Officer. The Group, through several dedicated and integrated assets, can very rapidly enable electronic innovation in the various sectors in which it plays a central role, including e-mobility, the Internet of things (IoT), industrial automation 4.0 and aerospace. FAE Technology is known for its focus on innovation - promoting open innovation and shared research at the "Kilometro Rosso" hub - and on sustainability and corporate social responsibility, becoming a Benefit Company on May 13, 2022. The Group benefits from strategic partnerships and memberships with major sector players, in addition to renowned universities and research centers, including the "Senseable City

Lab* at MIT (Massachusetts Institute of Technology) in Boston. In the second half of 2023, Elettronica G.F., a leading player in the supply of microprocessor-based proprietary electronic systems such as panel PCs, SOMs and Single Board Computers for various application areas, joined FAE Technology. In 2023, the Group reported consolidated revenues of Euro 71.6 million, and the parent company FAE Technology continued on its strong growth trajectory, with revenues in the year up 56.5% on 2022 to Euro 61.7 million. Group revenues in the first half of 2024 totaled Euro 44.2 million.
