Comments to 1H 2024 results

1H 2024 P&L posts total **Revenues** around 36.9M EUR, showing a +3.6% increase versus 35.6M EUR in the same period of 2023. It should be noted that the data for the first half of 2024 and 2023 are not directly comparable, as they refer to a different consolidation perimeter. Data for the first half of 2023 include the results of the Datatrics Business Unit, which was sold in October 2023. Organically, the growth of the SaaS component exceeds 20% for a 16% incidence on total revenues, whereas the CPaaS line grows 1.2%, for an 81% incidence on total revenues. The growth in other revenues is mainly related to grants from tenders and related allocations, as well as non-business invoicing (active rents and other services) and related to the disposals of the ESP business and Datatrics.

The **Agile Telecom** Business Unit posted the biggest revenues of ca. 30M EUR, increasing by ca. 1.3% over the same period of the previous year. The profitability of the first quarter of 2024 was affected by some negative market dynamics, resulting in performance below expectations. However, it benefited from the corrective actions taken in the second quarter to return to the excellent levels of the previous fiscal year, thus allowing for a gradual recovery of overall margins, which is still ongoing.

The fastest growing Business Unit is **BEE (beefree.io)**, with a 20+% increase in revenues, at 5.8M EUR or 6.2M USD turnover, driven by increasing volumes. ARR (Annual Recurring Revenues, a very popular key performance indicator for a subscription business, showing the average annual recurring value of existing contracts) amounts to 13.6M USD as of June 2024.

Foreign revenues amount to 29+M EUR, representing 79% of total revenues, growing +3.4% (or 6.9% organic) vs 1H 2023. Recurring revenues amount to 5.7M EUR, growing ca. 19% organically.

Consolidated **EBITDA** is negative by approximately 0.7M EUR in 1H 2024, while Gross Profit exceeds 8M EUR, with a revenue incidence of about 22%, up 12% compared to 2023. The COGS component remains substantially stable (+1.5%), decreasing by over 1.5 percentage points in terms of revenue incidence. A significant negative impact comes from the higher G&A costs (+31%), which increased at the Holding level and in the subsidiaries due to the general organizational strengthening of the Group, particularly in the Beefree Business Unit, as well as costs deriving from services provided to former subsidiaries subject to divestment and then re-invoiced based on specific contractual agreements. One-off costs, related to consulting and other expenses for extraordinary operations or variable compensations, also contribute. Other cost items negatively impacting EBITDA are related to the development of the Beefree Business Unit, especially in terms of Sales & Marketing (+18%) and Research & Development (+27%); Beefree's EBITDA is negative by approximately 1.7 M EUR.

EBT is negative by ca. 2M EUR, with 1.9M EUR depreciations. IFRS16-related amortizations amount to 0.3M EUR, growing by 9% YoY; R&D amortizations also grow by 13% to 1.5M EUR.

Net earnings in 1H 2024, after current and deferred taxation estimates, amount to ca. -1.8M EUR. The allocated tax figures, provided that consolidated taxation results from the aggregate amounts of individual taxation, applied on each legal entity.

The consolidated **Net Financial Position** as of 30 June 2024 exceed 23M EUR cash, decreasing versus the previously recorded net cash amount of 42.1M EUR as of 31 December, 2023, with a variation largely influenced by the following factors: (i) cash payment of fees and commissions pertaining to the 2023 fiscal year in 1H 2024, related to the execution of extraordinary transactions for the sale of businesses and the partial voluntary takeover bid, for approximately 1.4M EUR; (ii) payment of the first tranche of an extraordinary dividend for approximately 10M EUR; (iii) capitalization of R&D expenses, mainly related to Beefree, for approximately 2.5M EUR; (iv) increase in receivables from customers for approximately 2.1M EUR; (v) investment of excess liquidity in low-risk financial assets for approximately 4M EUR. Figurative debt from IFRS 16's adoption amounts to ca. 1.6M EUR. Cash and equivalents exceed 27.6M EUR.

The approved data have been submitted to BDO Italia S.p.A., appointed audit firm, for their review.

Consolidated P&L, balance sheet and cash flow statement are attached.
