Section IA.2.8

Methods of quoting prices

Article IA.2.8.1 **(Trading of pre-emptive rights)**

In establishing the methods and time limits for the trading of pre-emptive rights, Borsa Italiana shall adopt the following criteria:

- the trading methods for the rights shall be consistent with those for the financial instruments from which they originated;
- depending on the exercise period established by the issuer, trading in the rights shall start on the first trading day of each week of the year;
- trading in the rights shall end on the fourth trading day before the expiration date (if it is a trading day) of the exercise period.

Article IA.2.8.2 **(Availability of financial instruments deriving from rights offerings)**

Issuers make the financial instruments deriving from rights offerings available within time limits established in the rules of the related CSDs.

Article IA.2.8.3 **(“Ex rights” definition)**

“Ex-rights” shall mean “without rights” (where the right may arise in connection with dividends, pre-emptive rights, bonus shares, share splits, reverse share splits, drawings, redemptions, interest, periodic amount, etc.).

The effect of trading a financial instrument “ex-rights” is that the buyer is not entitled to exercise the related right.

Article IA.2.8.4 **(Ex-rights quotation)**

1. Borsa Italiana shall specify the date from which a financial instrument is to be traded “ex-rights”, except for the “ex-coupon” quotation for interest accrued on bonds or on government securities or asset-backed securities quoted on a clean price basis.
2. The “ex-rights” quotation of a listed financial instrument shall normally start on one of the coupon detachment dates in the market calendar, except as otherwise provided in Articles IA.2.1.1(2) (3) and Articles IA.2.8.5 and IA.2.8.6 of this Section.

Article IA.2.8.5
(Ex-draw quotation)

The "ex-draw" quotation of bonds subject to drawing for premiums or redemptions shall start on the day the drawing takes place (except, of course, for the last drawing).

From the day of the "ex-draw" quotation, Borsa Italiana shall change the amount outstanding of the bond issue.

Article IA.2.8.6
(Ex-redemption quotation)

1. The "ex-redemption" quotation of bonds, other than convertibles and asset-backed securities subject to partial repayment shall start on the second day before that on which the partial redemption takes place. For this purpose, the calculation of the days is based the calendar of the settlement currency of the contract and taking into account the open days of the relevant settlement system. If such day is a non-trading day, the ex-redemption trading day is the first following trading day.

From the day of the "ex-redemption" quotation, Borsa Italiana shall change the minimum trading lot, by reducing the previous minimum lot by the amount redeemable, and the amount outstanding of the bond loan or the part of the par value of the asset-backed securities still to be redeemed.

2. The "ex-redemption" quotation of convertible bonds subject to partial redemption shall start on the second open TARGET calendar day before that on which the partial redemption takes place. If such day is a non-trading day, the ex-redemption trading day is the first following trading day.

From the day of the "ex-redemption" quotation, Borsa Italiana shall change the minimum trading lot, by reducing the previous minimum lot according to the amount redeemable, and the amount outstanding of the bond issue.

Article IA.2.8.7
("Percentage" and "unit value" quotations)

Government securities, bonds and asset-backed securities shall be quoted on a percentage basis, the par value of the instrument being conventionally set equal to 100.

Whatever the par value of government securities, bonds and asset-backed securities, market prices shall be quoted in relation to the conventional par value of 100 and expressed as a percentage thereof.

Shares of all classes, (ordinary, preference, savings) and unit/shares of CIUs shall be quoted by unit price, regardless of their par value.

Warrants, ETCs/ETNs and rights (pre-emptive rights, bonus shares, etc.) shall be quoted by unit price.

Article IA.2.8.8

("Clean" or "ex-coupon" and "cum-coupon" quotations)

Except as otherwise specified by Borsa Italiana in the relevant admission notice, prices for government securities, bonds and asset-backed securities shall be "clean", i.e. "ex-coupon". This means that the amount of interest accrued is added to the price expressed in percentage terms, up to and including the settlement day.

The most common exceptions to the above instruments concern bonds and asset-backed securities carrying a coupon, multi-year or otherwise, whose amount can be quantified only at maturity and bonds for which the principal to be repaid can be determined only at maturity. Such bonds are quoted "cum coupon" by including the amount of interest accrued in the price.

For all other listed financial instruments, market prices shall be understood to be "cum coupon", i.e. inclusive of rights and entitlements (dividends accrued but not yet payable, pre-emptive rights and rights to bonus shares, etc.) up to the day before that of the "ex-rights" quotation of the financial instruments.

Section IA.2.9

Asset-backed securities and bonds other than convertibles and those subject to drawing for repayment shall be delisted by Borsa Italiana on the second day before that set for repayment (early or otherwise) of the issue. For this purpose, the calculation of the days is based the calendar of the settlement currency of the contract and taking into account the open days of the relevant settlement system. If such day is a non-trading day, the delisting day is the first following trading day.

(Bonds subject to drawing)

Bonds subject to drawing shall be delisted by Borsa Italiana on the date of the last draw, early or otherwise.

Article IA.2.9.4
(Convertible bonds)

1. Borsa Italiana shall normally delist convertible bonds on the first open TARGET calendar day before the last trading day on which they may be converted, early or otherwise. If such day is a non-trading day, the delisting day is the first following trading day.
2. In the case of convertible bonds whose conversion period ends well in advance of their maturity, on the first trading day following the last day on which they may be converted, Borsa Italiana may delist them from the related market and concurrently list them on the MOT market. Provisionally, Borsa Italiana shall order the suspension of the listing of the convertible bond on the open TARGET calendar day before the last trading day on which they may be converted as well as on the last trading day on which they may be converted.

Article IA.2.9.5
(Government securities)

Borsa Italiana shall delist government securities on the second day before their repayment date. For this purpose, the calculation of the days is based on the calendar of the settlement currency of the contract and taking into account the open days of the relevant settlement system. If such day is a non-trading day, the delisting day is the first following trading day.

(AIFs)

1. In case of expiry of the duration of a AIFs, Borsa Italiana shall delist the fund's units, normally on the second open TARGET calendar day before the expiry of the fund. If such day is a non-trading day, the delisting day is the first following trading day.
2. By way of derogation from paragraph 1, if it is necessary for the protection of the interest of investors, also taking into account the fund rules, Borsa Italiana may delist the fund's units upon completion of the liquidation.
