Ora: 18:15

Mittente: UniCredit S.p.A.

Oggetto: Risultati EBA test / Eba test results

Testo: da pagina seguente

COMUNICATO STAMPA

UniCredit: Risultati EBA Test

UniCredit prende atto delle comunicazioni odierne dell'EBA e dell'autorità di vigilanza nazionale in merito all'esercizio sul capitale, che evidenziano i seguenti risultati per UniCredit.

L'esercizio sul capitale proposto dall'EBA e concordato dal Consiglio il 26 ottobre 2011 richiede alle banche un rafforzamento del proprio capitale attraverso la costituzione di un buffer temporaneo rispetto alle esposizioni verso gli emittenti sovrani per tener conto delle attuali condizioni di mercato. Richiede inoltre un buffer che porti il coefficiente Core Tier 1 al 9% entro la fine di giugno 2012. L'eventuale fabbisogno di capitale è stato calcolato in base ai dati di settembre 2011. Non sono previste variazioni dell'importo del buffer di capitale relativo al rischio sovrano.

71 banche in tutta Europa, compresa UniCredit, hanno partecipato all'esercizio sul capitale, che ha l'obiettivo di creare un buffer straordinario e temporaneo per fronteggiare la preoccupazione dei mercati per il rischio sovrano e gli altri rischi creditizi collegati all'attuale difficile fase congiunturale. Questo buffer non ha l'obiettivo di coprire perdite causate dal rischio sovrano, bensì di assicurare i mercati in merito alla capacità delle banche di resistere a una serie di situazioni di shock mantenendo un capitale adeguato.

L'esercizio sul capitale condotto dall'EBA, in cooperazione con l'autorità nazionale competente, ha determinato che: UniCredit ha esigenze di rafforzamento patrimoniale pari a 7.974 milioni di euro; ad esse deve essere data soluzione entro la fine di giugno 2012 (in crescita rispetto ai 7.379 milioni di euro di ottobre, a causa della perdita registrata nel terzo trimestre).

UniCredit assicurerà il raggiungimento di un Core Tier 1 ratio del 9% entro la fine di giugno 2012 e presenterà alla Banca d'Italia un piano per il raggiungimento di tale obiettivo. Il piano conterrà l'insieme di azioni predisposte per soddisfare l'obiettivo del 9%, riducendo così il fabbisogno a zero entro giugno 2012. Il piano dovrà essere presentato entro il 20 gennaio 2012 e verrà discusso con le autorità nazionali competenti, nell'ambito dei collegi dei supervisori e con l'EBA..

A questo proposito, includendo la ristrutturazione dei CASHES e l'aumento di capitale recentemente annunciato, UniCredit avrà un capital buffer di 1.7 miliardi di euro come conseguenza di un Core Tier 1 ratio (che include i CASHES e l'annunciato aumento di capitale) del 9,4% rispetto al livello richiesto del 9%.

Le misure sul capitale sono finalizzate a restituire fiducia ai mercati, a facilitare l'accesso delle banche ai mercati della raccolta, a consentire alle banche di continuare a fornire adeguato sostegno finanziario all'economia reale.

La metodologia alla base dell'esercizio sul capitale è stata definita dall'EBA prima di questa comunicazione allo scopo assicurare un'applicazione uniforme a tutte le banche europee partecipanti all'esercizio.

Per ulteriori dettagli sulle misure definite per ristabilire la fiducia nel settore bancario, si rimanda al sito dell'EBA (www.eba.europa.eu).

Of which: (-/+) adjustment to valuation differences in other AFS assets ⁽¹⁾	1,720		Prudential filters for regulatory capital (COREP line 1.1.2.6.06)
B) Deductions from common equity (Elements deducted from original own funds) (-)	-2,471		COREP CA 1.3.T1* (negative amount)
Of which: (-) deductions of participations and subordinated claims	-1,139		Total of items as defined by Article 57 (l), (m), (n) (o) and (p) of Directive 2006/48/EC and deducted from original own funds (COREP lines from 1.3.1 to 1.3.5 included in line 1.3.T1*)
Of which: (-) securitisation exposures not included in RWA according with CRD3 (2)	-352		COREP line 1.3.7 included in line 1.3.T1* (50% securitisation exposures in the banking and trading book subject to 1250% risk weight; Art. 57 (r) of Directive 2006/48/EC)
Of which: (-) IRB provision shortfall and IRB equity expected loss amounts (before tax)	-980		As defined by Article 57 (q) of Directive 2006/48/EC (COREP line 1.3.8 included in 1.3.T1*)
C) Common equity (A+B)	36,682	7.78%	
Of which: ordinary shares subscribed by government	0		Paid up ordinary shares subscribed by government
D) Other Existing government support measures (+)	0		
E) Core Tier 1 including existing government support measures (C+D)	36,682	7.78%	Common equity + Existing government support measures included in T1 other than ordinary shares
Shortfall to 9% before application sovereign capital buffer	5,741	1.22%	9%RWA-Core Tier 1 including existing government support measures; if >0.
F) Hybrid instruments not subscribed by government	6,828		Net amount included in T1 own funds (COREP line 1.1.4.1a + COREP lines from 1.1.2.2***01 to 1.1.2.2***05 + COREP line 1.1.5.2a (negative amount)) not subscribed by government
Tier 1 Capital (E+F) (Total original own funds for general solvency purposes)	43,510	9.23%	COREP CA 1.4 = COREP CA 1.1 + COREP CA 1.3.T1* (negative amount)
RWA as of end September 2011 including add-on for CRD3 ⁽²⁾	471,364		
Of which: RWA add-on for CRD III as of end September 2011 ⁽²⁾	25,882		
Sovereign Capital buffer			
G) Prudential filter (AFS sovereign assets in EEA as of 30th September 2011) (-/+)	1,720		Please report the prudential filter as a positive number if the AFS revaluation reserve for sovereign assets is negative. Please report the prudential filter as a negative number if the AFS revaluation reserve is positive. If the bank does not apply a prudential filter on AFS sovereign assets, please fill in zero.
H) Difference between the book value and the fair value of sovereign assets (Bonds and Loans and advances) in the HTM and Loans & Receivables portfolios (3).	513		Difference between the book value and the fair value at the reference date. Please provide a positive number if the book value is larger than the fair value of sovereign assets. Please provide a negative number if the book value is smaller than the fair value of the sovereign assets.
Sovereign capital buffer for exposures in EEA (G+H)	2,233	0.47%	Sum of Prudential filter and valuation. If negative it is set to 0
Overall Shortfall after including sovereign capital buffer	7,974	1.69%	9%RWA-(Core Tier 1 including existing government support measures-Sovereign capital buffer for exposures in EEA); if >0.

Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: i) direct sovereign exposures in derivatives; ii) indirect sovereign exposures in the banking and trading book

Exposures to sovereigns (central, regional and local governments) in EEA, as of 30 September 2011, in EUR

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Composition of RWA as of 30 September 2011

Name of the bank:

IT041

UNICREDIT S.p.A

(in million Euro)

	Rules at the end of September	CRD 3 rules
Total RWA ⁽¹⁾	445,482	471,364
RWA for credit risk	383,019	383,262
RWA Securitisation and re-securitisations	4,382	4,624
RWA Other credit risk	378,638	378,638
RWA for market risk	11,618	37,257
RWA operational risk	50,845	50,845
Transitional floors ⁽²⁾	-	-
RWA Other	-	-

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

option 1

CDS and other contract Sovereign exposures (central, regional and local governments) in EEA towards other counterparties, as of 30 September 2011, mln EUR

Name of the bank: IT041 **UNICREDIT S.p.A**

Country (2)	Credit default swaps (CDS) and other contracts (1)	
	Bank is protection seller	Bank is protection buyer
	Notional amount outstanding (3)	Notional amounts outstanding (3)
Austria	1,650	1,358
Belgium	642	636
Bulgaria	211	223
Cyprus	61	44
Czech Republic	283	236
Denmark	23	21
Estonia	4	-
Finland	18	18
France	920	860

Slovakia	350	307
Slovenia	37	33
Spain	1,110	993
Sweden	363	358
United Kingdom	103	101

(1) It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination represent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

(2) The country identifies the reference entity single name of the CDS and other contracts.

(3) Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.

PRESS RELEASE

UniCredit: EBA Test Results

UniCredit notes the announcements made today by the European Banking Authority and competent National Supervisor regarding the capital exercise, which demonstrate the following result for UniCredit.

The capital exercise proposed by the EBA and agreed by the Council on 26 October 2011 requires banks to strengthen their capital positions by building up a temporary capital buffer against sovereign debt exposures to reflect current market prices. In addition, it requires them to establish a buffer such that the Core Tier 1 capital ratio reaches a level of 9% by the end of June 2012. The amount of any final capital shortfall identified is based on September 2011 figures. The amount of the sovereign capital buffer will not be revised.

71 banks across Europe, including UniCredit, were subject to the capital exercise whose objective is to create an exceptional and temporary capital buffer to address current market concerns over sovereign risk and other residual credit risk related to the current difficult market environment. This buffer would explicitly not be designed to cover losses in sovereigns but to provide a reassurance to markets about banks' ability to withstand a range of shocks and still maintain adequate capital.

Following completion of the capital exercise conducted by the European Banking Authority, in close cooperation with the competent national authority, the exercise has determined that UniCredit has a capital shortfall of 7.974 €mn which must be addressed by end June 2012, (it has increased from 7.379 mn reported in October, due to the third quarter net loss).

UniCredit will ensure that by the end of June 2012 the bank will adhere to the 9% core tier 1 ratio and, to this end, submit a plan to the national supervisory authority. In this plan the bank will set out the proposed mix of actions to meet the required 9% target thereby bringing the shortfall to zero by June 2012. The plan – to be submitted by January 20, 2012 – will be discussed with the national competent authorities, in consultation with the relevant college of supervisors and the EBA.

In this respect, including the restructuring of CASHES and the recently announced capital increase, UniCredit will have a capital buffer of €1.7bn as a consequence of Core Tier 1 ratio (with adjusted Cashes and the announced rights issue) of 9.4% with respect to the 9% threshold requested.

The capital to be raised and measures to be taken by the banks are designed to restore confidence in market participants, to facilitate banks' access to the funding markets as well as to put them in the condition to continue providing financial support to the real economy.

The methodology underlying the capital exercise was outlined by the EBA prior to its announcement to ensure consistency across all banks in the EU banking system involved in the exercise.

For more details on the EU measures to restore confidence in the banking sector please refer to EBA website (www.eba.europa.eu).

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparties with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparties (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item **does not include** exposures to counterparties (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Composition of RWA as of 30 September 2011

Name of the bank:

IT041

UNICREDIT S.p.A

(in million Euro)

	Rules at the end of September	CRD 3 rules
Total RWA ⁽¹⁾	445,482	471,364
RWA for credit risk	383,019	383,262
RWA Securitisation and re-securitisations	4,382	4,624
RWA Other credit risk	378,638	378,638
RWA for market risk	11,618	37,257
RWA operational risk	50,845	50,845
Transitional floors ⁽²⁾	-	-
RWA Other	-	-

Notes and definitions

(1) The RWA calculated according to CRD III can be based on models that have not yet been approved by the National Supervisory Authority.

(2) All IRB/AMA banks in the exercise have applied transitional floor which assess the impact 80% of the Basel 1 requirements. However, wide divergences in national approaches to the floors means that two main approaches have been identified as set out in the methodological note. The transitional floor has been applied according to the following approach:

option 1

CDS and other contract Sovereign exposures (central, regional and local governments) in EEA towards other counterparties, as of 30 September 2011, mln EUR

Name of the bank: IT041 **UNICREDIT S.p.A**

Country (2)	Credit default swaps (CDS) and other contracts (1)	
	Bank is protection seller	Bank is protection buyer
	Notional amount outstanding (3)	Notional amounts outstanding (3)

(1) It includes credit derivatives and other credit risk transfer contracts/instruments that irrespective of the denomination represent indirect exposures (as protection seller/buyer) on sovereign risk (reference entity)

(2) The country identifies the reference entity single name of the CDS and other contracts.

(3) Notional amounts outstanding: Nominal or notional amounts outstanding are defined as the gross nominal or notional value of all contracts concluded and not yet settled on the reporting date. For contracts with variable nominal or notional principal amounts, the basis for reporting is the nominal or notional principal amounts at the time of reporting.
